GROUP ACREAGE TOTAL: 0.3157	

=====

OTHER COMMENTS*****

=====

This application proposes to appropriate 1.73 acre-feet of water to be used for one domestic use (0.45 acre-feet); the stock watering for 4 alpacas and 10 chickens or 0.6146 Equivalent Livestock Units (0.01721 acre-feet); and the irrigation of 0.3157 acres or approximately 13,750 square-feet (1.2628 acre-feet).

The applicants are working with the Bureau of Land Management for a conditional use permit to access and develop Serviceberry Spring. If the conditional use permit is approved it is their intention to develop and use the spring for the proposed uses, if it is determined that this spring is an isolated source and can be approved subject to the current appropriation policy for the Hamblin Valley area.

If the conditional use permit is not granted, then they would propose to develop the proposed well.

The applicants hereby acknowledge that the map attached to this application was prepared in support of this application. By our signatures on this application, we hereby accept and submit this map as a true representation of the facts shown thereon to the best of our knowledge and belief.
